

# ARNOLD safety jack

ARNOLD safety jack 1

ARNOLD **safety jacks** offer optimal, easy to handle and durable support for parked semi-trailers.

Available **models**:

- **safety jack 1**: swing plate bearing, hot galvanised steel construction
- **safety jack 2**: extremely wide support area, fork lift pockets, winch for power assistance
- **safety jack 6**: 2-way winch, hot galvanised, wide support area, ergonomically optimised
- **safety jack 7**: lever brace, painted steel, wide support area

ARNOLD safety jack

ARNOLD safety jacks prevent parked semi-trailers from tipping over during loading operations. Thanks to its intelligent and robust construction, the ARNOLD safety jack is extremely durable and at the same time easy to handle.
