

ARNOLD® wheel chock WITH SIGNAL FLAG

Artikelnummern: 704020008 (driver's side, right-hand driving), 704020009 (passenger side, right-hand driving)

Description

The ARNOLD® wheel chock which signal flag reliably prevents vehicles from inadvertent rolling.

To an almost vertical handle bar a two-coloured signal flag is mounted in such a way, that, if the chock is positioned correctly, the truck driver sees the green side of the flag („Stop!“) in his rear view mirror while the loading area staff sees the green side („Truck chocked.“).

Thanks to its handle bar and hand grips the ARNOLD® wheel chock can easily be carried which two hands are positioned at the truck wheel.
